Office Action Summary	Application No. 10/695,505	Applicant(s) HUANG, HUEI-RONG	
	Examiner Gloria Hale	Art Unit 3765	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-4 is/are pending in the application.
- 4a) Of the above claim(s) ____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) ____ is/are allowed.
- 6) ☒ Claim(s) 1-4 is/are rejected.
- 7) ☐ Claim(s) ____ is/are objected to.
- 8) ☐ Claim(s) ____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 10-27-03 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
 Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
 Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

DETAILED ACTION

Specification

The abstract of the disclosure is objected to because the abstract needs to be reviewed and amended to ensure that it is written in proper idiomatic English and to correct deficiencies such as in line 2. Correction is required. See MPEP § 608.01(b).

The disclosure is objected to because of the following informalities: such as on page 2 lines 8-9 and throughout the specification wherein it is not written in proper idiomatic English. The entire specification needs to be reviewed and amended so that it is written in proper idiomatic English.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 2 it is not clear if the "outer fabric" is a layer or a portion. It is also not clear as to what "being of a piece body" encompasses or as to how the bra has "breasts. It appears that they are breast-shaped cups. It is also not clear as to what the "back strap" encompasses or as to where they extend or as to what the "both sides and back" encompass. In line 4 it is not clear as to what "an inner fabric" includes such as a "layer" or a "portion". It is also not clear as to whether the two bra cups are the same as

those described in line two or if they are additional ones. In line 6 it is not clear as to what "two steel rim straps" encompass. Are they steel underwires? Or as to what the "steel rims" are. It is also not clear as to what the "a set of clasp device assembly being a connection means at back" encompasses or where "at back" actually is. In line 9, "sewed" should read -- - sewn - - and there is no antecedent basis for "the lower edges" and in line 10, "the peripheries" and "the needed joints". It is not clear as to what "predetermined portion" is. Also, claim 1 is a product by process claim which is unclear and indefinite. If a product is being claimed only the structure of that device should be positively recited without the use of the method step language. If applicant desires to claim the method of making the brassiere then the claim should be written in clear method steps showing how to make the brassiere. The present claim claims both a method and a device which is indefinite, unclear and confusing. In claim 3 it is not clear as to what the clasp device assembly encompasses. Also the structure should be claimed without using method steps as discussed above in regard to claim 1. There is also no antecedent basis for "the lining", "the peripheries" and line 5 is unclear in regard to the lining piece. The claim should be written in an apparatus structure format as outlined in the preamble and all method step language should be removed. In regard to claim 4 it is not clear as to what a "sticking clasp" encompasses. "Can be" also renders the claim indefinite.

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the The shoulder

straps of claim 2 and the sticking clasp of claim 4 must be shown or the feature(s) canceled from the claim(s). The hot pressing device of claims 1 and 3 are also not shown. However, if the method steps are removed then they do not need to be shown. No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
